

Download and Install GlobalProtect VPN from the Chrome Web Store

1. Search for the app in the Chrome Web Store or go directly to the [GlobalProtect app page](https://chrome.google.com/webstore/detail/globalprotect/nicidmbokaedpmoegdbcebhnchpegcdc).
<https://chrome.google.com/webstore/detail/globalprotect/nicidmbokaedpmoegdbcebhnchpegcdc>
2. Click Add to Chrome and then follow the prompts to download and install the app.
3. When successfully installed, the Chrome App Launcher displays the GlobalProtect icon in the list of apps.

Configure your VPN Settings

1. In the launcher, click the GlobalProtect icon to launch the app.
2. On the initial setup screen, enter the FQDN **GPnet.citytech.cuny.edu** of the GlobalProtect portal
3. Click Add Connection to add the GlobalProtect VPN configuration.
The app displays the home screen after it adds the VPN configuration to the Internet connection settings of your Chromebook but does not initiate a connection.
4. Close the GlobalProtect app.

GPnet.citytech.cuny.edu

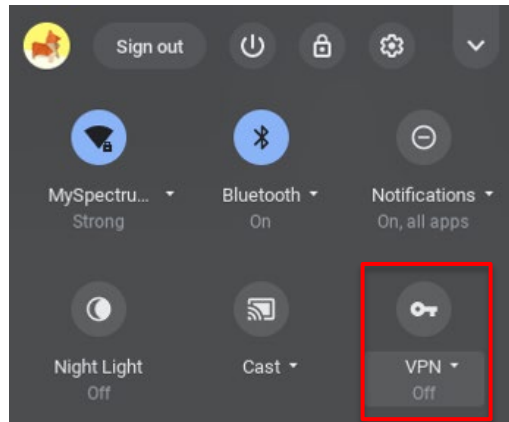

Enter the portal address to add a VPN connection configuration.

Enter the FQDN:
GPnet.citytech.cuny.edu

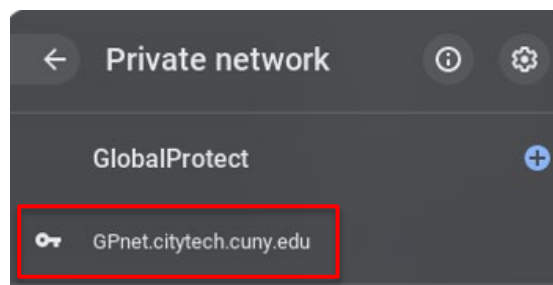

Add Connection

Log into GlobalProtect

1. Click the status area at the bottom right corner of the Chromebook.
2. Select VPN Icon

3. Select the portal Gpnet.citytech.cuny.edu

4. Enter your Username and Password for the portal and click Connect.

GlobalProtect Login

Enter login credentials

Portal

GPnet.citytech.cuny.edu
