

**ADJUNCT WORKLOAD MANAGEMENT OFFICE  
INTER-OFFICE MEMORANDUM**

**DATE:** FALL 2022

**TO:** All Faculty Members

**FROM:** Constance Tate, Academic Faculty Workload Manager

**SUBJECT: Guidelines - eClass Folders**

\*\*\*\*\*

Continuing in **FALL 2022**, the college will utilize Excel© eClass Folders for recording student attendance, grades and other information previously recorded on the paper folders. This practice eliminates both the expense and the space needed by departments to store paper folders for many years, and will allow faculty to download rosters from MyInfo directly into eClass folders, as well as perform calculations to compute grades, saving time and minimizing errors.

1. Separate eClass Folders should be used for each section. Templates for class folders will be emailed to all instructors and are also available on the Faculty Commons website:

<http://facultycommons.citytech.cuny.edu/cuny-first/> .

2. Your semester schedule and class rosters are available in MyInfo. Directions for accessing your semester schedule and class rosters can be found at the end of this memo.

3. Please enter the following into the eClass Folder: Instructor Name; Course code (i.e. ENG 1101); Section number; Semester (i.e. **FALL 2022**); Meeting times, days, and rooms. This information is found in MyInfo, “My Instructor Schedule.” Please notify the department chair if you believe there are any errors.

4. A record of attendance must be maintained for each class meeting using the following notation and initialed: Present (/) Absent (A) Late (L)

5. All student grades that will be factored into the final grade must be recorded in each eClass Folder (see figure, which follows). The designated area on the lower left-hand corner of each class folder is to be used to indicate the nature and weight of each grade recorded. **Note:** Specific columns are provided to record mid-semester evaluation, final examination, and final course grades. To enter this information, click on the cell where you want the data to go. Click on the double-down arrow to expand your view, of the cell and enter the information.

6. At the conclusion of the semester, after entering the final grades into the CUNYfirst final grade rosters, instructors must submit the completed eClass folder to the department. The Excel file or a scanned file (11"x17") are acceptable. Instructors should **sign** each eClass folder. Electronic signatures are acceptable. **You must submit your eClass folder to your departmental college office assistant via your City Tech email account. Personal email accounts should not be used**, to assure that it is the instructor making the submission. Please fill in all of the information requested on the eClass folder. The office **will not** accept your folder unless this information has been provided. This procedure will help to resolve questions that students raise regarding their course grades, especially when they appeal. Use the following convention to name your eClass folder before sending:

- i. Course Number
- ii. Section Number
- iii. Instructor Name
- iv. Semester

EXAMPLE: Prof. Jane Doe taught CUNYfirst Basics, CFB 1100, on Thursday evenings, section E584 in **FALL 2022**. The eClass folder would be named: CFB1100 E584 Doe **FALL 2022**. If there are two faculty members with the same last name, then first initials or first names should be added as well.

Any questions/concerns/suggestions should be directed to your department chair. Thank you for your cooperation in this very important matter.
