Letitia “Tish” James is the 67th Attorney General for the State of New York. With decades of work, she is an experienced attorney and public servant with a long record of accomplishments. She is the first woman of color to hold statewide office in New York and the first woman to be elected Attorney General.

In 2013, Ms. James was elected Public Advocate for the City of New York and became the first woman of color to hold citywide office. As Public Advocate, Ms. James served as a watchdog over New York City government agencies and as an advocate for the City's most vulnerable communities. She transformed the Public Advocate's office to be a formidable engine for change.

Her office handled over 32,000 constituent complaints and passed more legislation than all previous Public Advocates combined, including a groundbreaking law that banned questions about salary history from the employment process to address the pervasive gender wage gap. Ms. James successfully took on the gun industry by pushing New York City's largest pension fund to divest from gun and ammunition retailers. She fought in court on behalf of children and families on issues including children in foster care, children with disabilities, and tenant protection. New Yorkers overwhelmingly elected Tish James to a second term as Public Advocate in November 2017.

Prior to serving as Public Advocate, Tish James represented the 35th Council District in Brooklyn in the New York City Council for ten years. As a Council Member, she passed the Safe Housing Act, legislation that forced landlords to improve living conditions for tenants in New York City's worst buildings. She helped uncover the corruption behind the Office of Payroll Administration’s CityTime contract, a scheme that cost New York City over $600 million. She also pushed through a revolutionary recycling package that included expanding plastic recycling, a new clothing and textile recycling program, and increased access to recycling in public spaces.

Before her election to the City Council, Tish James served as head of the Brooklyn Regional Office of the New York State Attorney General’s Office. She resolved hundreds of consumer complaints and investigated predatory lenders who preyed on first-time homebuyers. She assisted the Civil Rights Bureau in its investigation of the NYPD’s stop-and-frisk policy and cracked down on firms engaged in deceptive business practices including violations of human rights, environmental laws, and scams targeting immigrants.

Tish James began her career as a public defender at the Legal Aid Society. A proud Brooklynite, she is a graduate of Lehman College and Howard University School of Law.
Gabrielle Langston, valedictorian of the class of 2019-2020, is graduating summa cum laude with a Bachelor of Science in Applied Mathematics.

Gabrielle was born into the vibrant New York City culture. She currently lives in Brooklyn with her mother, and is of Puerto Rican and African-American descent. She is proud to embrace both lineages, enjoying her mother’s arroz con pollo and her grandmother’s southern mac and cheese.

Gabrielle’s academic journey has not been easy; early on she was diagnosed with speech delay, placed in special education, and underwent intensive speech therapy until middle school. Her college career started at Boston University in the fall of 2012, where her GPA eventually fell below a 2.0 and she did not complete her studies. Upon her return to New York, her mother encouraged her to obtain two part-time jobs, and in the fall of 2014, she initially enrolled as a Mathematics Education student at City Tech.

As she progressed in her studies, Gabrielle found she enjoyed programming languages, visualization tools, and data analysis. Those interests led Gabrielle to change her major to Applied Mathematics. As for her future goals, Gabrielle intends to pursue a master’s degree in Data Analysis and Visualization. In those studies and in her future career, she is determined to encourage and support women who enter STEM fields, especially women of Hispanic or African-American descent.

In addition to her employment and undergraduate work, Gabrielle is a recipient of the NSF STEM Scholarship, Vice-President of the City Tech Math Club, Secretary of the Society for Industrial and Applied Mathematics (SIAM), and a member of the Honor Scholars Program. She has also conducted research projects through the Emerging Scholars and Honors Scholars Programs. She presented her research at the “CUNY Celebrates Women in Computing” conference in May 2019 and at the “Mathematical Association of America Mathfest” conference in July 2019.

This past year, Gabrielle was accepted into CUNY Service Corps, where she secured a prestigious internship at BetaNYC, a pioneering civic tech company based out of the Manhattan Borough President’s Office. In addition, she tutored mathematics for the Accelerated Study in Associate Programs (ASAP), where she taught brilliant, innovative students of all backgrounds. She strives to live by the quote from Madame Marie Curie: “Nothing in life is to be feared, it is only to be understood. Now is the time to understand more, so that we may fear less.” Given the current pandemic, these words are more important than ever.
Alexis Cartagena is the salutatorian of the class of 2019-2020. He is graduating with a Bachelor of Technology in Facilities Management. Alexis is a native New Yorker, born in Jackson Heights, Queens and raised in Williamsburg, Brooklyn. He currently resides in the Highbridge neighborhood of the Bronx.

Alexis is the son of first-generation immigrants from the Dominican Republic, and life did not allow him to begin college directly after high school. He lives with his wife and three school-age children, ranging in age from three to twenty years old. He resolved that, when he was finally able to pursue a college education, he would make the most of it.

From an early age, Alexis was curious about how mechanical objects and even social arrangements work, which led him to become an avid fan of science fiction tales where the protagonist strives to improve the life of the society in which he or she lives. He has applied his insights in a number of positions where he has been able to have a positive impact on those around him, including his current position in facilities management at a K-12 school.

When presented with the opportunity to assist in managing the newly constructed, state-of-the-art facility where he is currently employed, he immediately knew that he needed to enhance his skill set. This led him to City Tech’s Facilities Management degree program.

Alexis takes great pride in giving his all to achieve the goals that he has set for himself, and also in assisting his family, friends, fellow students and colleagues. With his degree, he says, he will move forward in life knowing that his personal growth and accomplishments will allow him to help his community, and to inspire others to do the same.

Alexis has taken a longer road than many of his fellow graduates, but his achievements show that the journey was worth the effort.

Cover Design: Nelya Kelly moved to the United States from Tashkent, Uzbekistan. Her ancestors are Tatar. Presently she is a student at City Tech where she is completing her Bachelors Degree in Communication Design/Advertising. Nelya’s love for art began in the second grade and soon became a passion, which she continued to pursue. It is upon these same passions that Nelly has built her academic and professional foundations in New York City. Listening to Cher motivated her to learn English in school and she became determined to master the language. During her free time, she enjoys sketching, drawing and painting. In addition to Russian and English, she is currently learning Spanish and Portuguese.

Journal Design: Jamie Markowitz, Office of Image & Visual Communications
