## ADVISEMENT GUIDELINES

Please note that Degree Works Audit does not plot 120 credits and does not clearly indicate when a student still needs additional liberal arts credits to meet graduation requirements. This is a programming issue that cannot be fixed. Therefore, it is important that you read the following guidelines to determine your graduation semester through course choice and plotting on the Advisement Guide.

**LIBERAL ARTS REQUIREMENTS:** The Degree Works Audit does not plot all of the 60 credits of Liberal Arts (LA) courses in the main section of the Audit instead, LA courses are located on the bottom of the audit: *'elective classes allowed'*. The Degree Works for many of the LA will not say: 'STILL NEED LIBERAL ARTS' so you need to count your LA to be sure you have 60. Some students think they are finished because there are no 'still needed' on the audit, but students may still need LA courses to make 60 credits. <http://www.citytech.cuny.edu/gen-ed/liberal-arts-sciences.aspx>

**TAP FLAGS:** Be prepared for a TAP Flag: TAP will often flag these LA courses, since they are not plotted and remain on the bottom of the audit, and TAP thinks they are not valid. To rectify this TAP Flag, do the Advisement Guide, then tell any Advisor what course(s) are being flagged. Ask the Advisor to email Kwesi Reid, in Registrar and copy TAP. Mr. Reid will then inform TAP of your status as needing the course(s). Be sure it is a course you need. Note that Kwesi Reid assesses all HUS degrees. We do not award the degree, only Registrar can. We only offer the courses.

### GENERAL INFORMATION:

**A. Transfer Students: With a HUS Associate Degree.** Make sure you check with an Advisor before taking ANY HUS/HEA Associate courses, as you may not need them. Contact the Transfer Office if you believe any transfer credits are not correctly evaluated: <https://www.citytech.cuny.edu/registrar/credit-evaluation.aspx>

**B. Transfer Students Without an HUS Associate Degree.** Students need to complete all the major course requirements, including the 60 Human Service Courses. Often, transfers come with a lot of LA courses, so be aware that your plan may no longer be seamless-sometimes the student can only go part-time due to prerequisites. **As per department curriculum policy, we do not allow students to skip prerequisites.** Contact the Transfer Office if you believe any transfer credits are not correctly evaluated: <https://www.citytech.cuny.edu/registrar/credit-evaluation.aspx>

**C. Associate HEA Courses:** Students can take another 3 credit course and plot as a LA, just not HIV/AIDS course.

**D. MAT 1272 Double Duty:** counts for the HUS statistics requirement and the Scientific World (SW) category for 3 credits (not 6). Some students may also plot MAT 1272 in MQR, but then must take a Scientific World course.

**E. Interdisciplinary Course .** *MUST* have an ID section. *Do not take SB2000ID as it the same as HUS 3610.* Do not take both Health Psy ID and Health Psy-Credits given for only one. See ID page, and options if graduating. ID courses are filled quickly.

<https://www.citytech.cuny.edu/advisement/interdisciplinary.aspx>, or search *Interdisciplinary* on website

### F. Writing Intensive Courses

- **Non-Major Writing Intensive (WI) Requirements:**
- **HUS Major WI Requirement** is fulfilled as all HUS field/internship courses are designated as WI. Students must complete WI for Liberal Arts/Gen Ed as well.

**G. \*Check The Prerequisite(s)** for HUS/HEA courses in the online [catalog](#)  
Registrar will drop students from courses without prerequisites.

**H. Override for a Course:** If you need an override for an OPEN section, and there is a valid glitch email the Chairperson. In the subject line put your Emplid ID/FULL NAME. In the email (only from your CityTech email) indicate the Course (HUS 1101) Open course section (E856). Overrides are given for glitches and closed field/internship

sections. We do not give overrides for personal schedules, financial aid, or closed sections. Classes have a cap, so please do not request an override unless you qualify. This is a Dept. policy that all faculty/Chair must follow. Note: Do not ask an instructor to allow you into their class, as they do not have the authority.

**I. Course Offerings & FIELD/INTERNSHIP:** We only offer what is on CUNYfirst as we do at least one section in the day or eve/weekends. Summer & Winter Session has limited offerings. We design the course schedule for the next semester in October/March. **FIELD/INTERNSHIP: The HUS Department has a Field/Internship policy in the College catalog of a NO exception application due dates : 12/1 for the spring semester & 5/1 for the summer/fall semesters. (Application; Resume; Title IX; Completing pre-requisite courses). Internship Coordinator will do an Orientation in HUS 1203 and HUS 3501 courses as well as other dates/times. Students who then secure a Learning Contract will be given an override to register for the course. See CityTech email and HUS Website for Field Manual Guidelines.**

**J. Come to Advisement Early in the Semester-as the line gets long:** We have approximately 14 hours of advisement per week, for 14 weeks (196 hours!) Please arrange your schedule. We have limited advisement in Winter and Summer Sessions. We will send schedules to CityTech emails and other information on a regular basis. (Faculty are off in summer). Check out the Human Service Department Website for Advisement Schedules and more: <https://www.citytech.cuny.edu/human-services/>

Students are responsible for reading their CityTech email, catalog, College Website, etc. Students who have not done this have graduated later than expected. If you are not getting our emails, contact our Administrative Assistant in A805 or email: [humanservices@citytech.cuny.edu](mailto:humanservices@citytech.cuny.edu)

Students need to complete *60 Liberal Arts/Pathways* and *60 HUS credits = 120 credits* - Count your credits~ as the Degree Works Audit will not plot 120 credits nor all of the 60 Liberal Arts/Pathways required credits. Questions about your audit? Email: [DegreeWorks@citytech.cuny.edu](mailto:DegreeWorks@citytech.cuny.edu)

**For All Non-Advisement Inquires:** Contact the Student Welcome Center/Info: 718-260-5520 Lib Bldg. 1<sup>st</sup> Fl or ONLINE CATALOG AND COLLEGE WEBSITE.
