

DEP Web Development Internship Job Description

In partnership with the Department of Environmental Protection (DEP), the CUNY Institute for Software Design and Development (CISDD) has an exciting internship position available to CUNY students. The program allows students to receive practical hands-on training and experience while assisting DEP in achieving their long-term technical objectives. The internship will be at DEP offices in Flushing, Queens and the position is categorized as a web development intern. Although the location is at DEP, this is considered an on-campus position.

Qualifications for DEP interns:

- ❖ Current CUNY registered student
- ❖ Available to work part-time 19 hrs/week (flexible 9-6 scheduling with possible opportunities to work to 8 pm)
- ❖ Authorized to work under INS laws for on-campus jobs

Special requirements / Work responsibilities

As an intern at DEP New Media, you would be relied upon as a professional web developer, performing page creation, maintenance, and high profile edits on our large and fast-moving website. You will receive valuable training and advanced experience with Interwoven Teamsite, a widely used enterprise-level XML-based content management system.

We are looking for a team player who is willing to quickly handle small, high priority copy edits, but is also motivated to use our substantial technical resources (**Macromedia ColdFusion, PHP, .net, Flash**) to improve our workflow during down-time.

Great communication, writing skills, and the ability to manage large-scale projects are a must. Experience with graphic design is a plus.

Pay Rate:

- ❖ \$12 per hour

To apply:

Applicants should send resumes to joyce.o'brien@mail.cuny.edu.

Note “DEP Web Developer**” in the subject line.**

No phone calls please.
