Implementation

The Office of Human Resources Management (OHRM) is working with the Computing & Information Services (CIS) to update as much information as possible programmatically in CUNYfirst. We will identify and inform the campuses of any actions needed to be manually updated by the Colleges at a later date.

Payroll System Updates

Community Colleges: Community Colleges do not have to submit payroll documentation to University Payroll to raise the salaries of those employees in these titles. University Payroll and CIS will automatically increase the salaries for these employees for both contractually agreed effective dates of 1/1/2018 and 7/1/2018. The increase will be reflected in the paycheck dated **3/22/2019** and all retroactive payments due from the effective date will be included.

Senior Colleges: Senior Colleges do not have to submit payroll documentation to University Payroll to raise the salaries of those employees in these titles. University Payroll and CIS will automatically increase the salaries for these employees for both contractually agreed effective dates of 1/1/2018 and 7/1/2018. The increase will be reflected in the paycheck dated **3/28/2019** and all retroactive payments due from the effective date will be included.

Please post this memorandum on your College's HR website, and promptly share this information with employees affected by the increases. Individual questions and concerns should be directed to the employee's campus HR Office.
