DEPARTMENT OF NURSING
NURSING STUDENT HANDBOOK
ASSOCIATE DEGREE PROGRAM

January , 2017
Welcome to New York City College of Technology (NYCCT)
Associate Degree Nursing Program

You are about to begin an important step in your professional journey. This exciting and challenging phase of your education will provide you with knowledge, skills and experiences to guide you in your path of lifelong learning. You will grow professionally and personally through interactions with faculty, fellow students, nursing staff and patients in clinical agencies. Our program has been a leader in nursing education in Brooklyn for over fifty years. The faculty is here to help you and facilitate your learning. Take advantage of opportunities and don’t hesitate to seek out faculty and learning experiences. Our student achievement outcomes data is described in this document (p. 22).

Students are responsible for being familiar with both NYCCT and the Nursing Associate Program in terms of academic requirements and other policies. This handbook for associate nursing students provides information regarding the curriculum, specific courses, policies, procedures, available resources, and issues that are of concern to student academic life. It also outlines rights and responsibilities of NYCCT nursing students.

This Handbook acts as a companion to the College Catalog, which is another resource for academic policies and procedures. These policies, and any additional Nursing Department policies and procedures relative to student records, publications, grievances and discipline, are consistent with the Family Educational Rights and Privacy Act (FERPA) (20 USC 1232g; 34 CFR Part 99), a Federal law that protects the privacy of student educational records. Please see the NYCTT College Catalog and Student Handbook for important policies and procedures regarding non-discrimination, policy on acceptable use of computer resources, immunization requirements, Freedom of Information Law, 224-A New York State Education Law, CUNY Student Complaint Procedure, Student Disciplinary Procedures, Campus Safety and Security, Policy against Sexual Harassment, Student Conduct Regulations and Special Programs to support students.

Students are responsible for using the handbook as a resource when questions arise and as a guide to academic and nonacademic policies and procedures. Students need to be aware that changes made to policies and procedures may impact them as a student.

Note that the information in this handbook is updated regularly. The information in this handbook is accurate as of January, 2017. The Associate Program Nursing Student Handbook, the NYCCT College Catalog are available electronically on the NYCCT website (http://www.citytech.cuny.edu/).

We are delighted that you are here. Best wishes from the entire faculty.

Margaret A. Rafferty, DNP MPH MA
Chair, Nursing Department

Compiled by: Prof. K. Richardson 9/96
Updated by: Prof. E. McGuinn May, 2012
Updated by: Dr. M Rafferty December 2013, January 2014; January 2015
Updated by: Dr. P Okumakpeyi, Prof. L Santisteban July 2015
Dr Rafferty August 2015
Dr. Rafferty January 2016, June 2016, August 2016
Updated by Dr. Rafferty January 2017

New York City College of Technology reserves the right to change requirements, policies, rules and regulations without prior notice in accordance with established procedures. It also reserves the right to publish the nursing handbook in this electronic version and make changes to the electronic version that take precedence over the printed version.

Nursing/Associate in Applied Science

Dr. Margaret Rafferty, Chair
Pearl 505
718.260.5660
email: mrafferty@citytech.cuny.edu

Faculty:

Associate Professors: Dato, Egues, McGirr, Okumakpeyi, Rafferty
Assistant Professors: Bradley, Curran, Dorsainvil, Falk, Gellar, Kontzamanis, Leinung, Maley, Palmer, Paradiso, Santisteban, Waddy
CLT: Li May Li

ACCREDITATION
The Associate in Applied Science and the Bachelor in Science Programs are accredited by the Accreditation Commission for Education in Nursing and registered with the New York State Education Department.

Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326, Telephone: 404.975.5000; Fax: 404.975.5020; website: www.acenursing.org

New York State Education Department, The University of the State of New York, Professional Education Program Review, 89 Washington Avenue-2nd Floor West Wing, Albany, NY 12234, Telephone: 518.486.2967; Fax: 518.473.0114; email: opprogs@mail.NYSED.GOV

AMERICANS WITH DISABILITIES ACT
If you have a physical, psychological, medical or learning disability that may impact on your ability to carry out assigned course work, contact the staff in the Center for Student Accessibility office, Room Atrium 237, 718.260.5143. The Center for Student Accessibility will review your concerns and determine with you what accommodations are necessary and appropriate. All information and documentation of disability are confidential.

NEW YORK CITY COLLEGE OF TECHNOLOGY POLICY ON ACADEMIC INTEGRITY
Students and all others who work with information, ideas, texts, images, music, inventions, and other intellectual property owe their audience and sources accuracy and honesty in using, crediting, and citing sources. As a community of intellectual and professional workers, the College recognizes its responsibility for providing instruction in information literacy and academic integrity, offering models of good practice, and responding vigilantly and appropriately to infractions of academic integrity. Accordingly, academic dishonesty is prohibited in The City University of New York and at New York City College of Technology and is punishable by penalties, including failing grades, suspension, and expulsion. The complete text of the College policy on Academic Integrity may be found in the catalog.

CUNY RESIDENCY POLICY FOR ADMISSION INTO NURSING PROGRAMS
Starting in the Fall 2009 semester, all CUNY nursing departments will require applicants for admission into nursing clinicals to provide documentation in one of the following categories:

1) U.S. Citizenship;
2) Permanent Residency;
3) International Student with F1 Status;
4) Granted Asylum, Refugee Status, Temporary Protected Status, Withholding of Removal, or Deferred Action Status by the U.S. government.

Students, who are unsure of their status or for assistance, may contact the CUNY Citizenship Immigration Project office at CityTech, Namm Building 621A.
Associate in Applied Science in Nursing

The Nursing program prepares students to become members of the health team in health service agencies, clinics, community and long-term care agencies and hospitals. In addition to academic coursework in the classroom, skills are practiced in the College laboratory and health care facilities. Adjunct faculty who hold outside employment in a variety of clinical and educational settings teach approximately 60% of the clinical sections of the nursing courses. National Council Licensure Exam (NCLEX-RN) pass rates for City Tech nursing graduates exceed the mean for all similar programs in New York State.

The Nursing program at New York City College of Technology bases its curriculum on Watson’s philosophy and theory of human caring in nursing. Students learn to care for clients by providing a supportive, protective and/or corrective environment, with attention to the client’s physical, emotional, socio-cultural and spiritual condition. Clients are assisted at each level of human development to move toward the fullest realization of health potential through gratification of human needs. Gerontological nursing and community-based nursing are integrated throughout the curriculum. Technology is infused into the curriculum through clinical laboratory simulation and Blackboard enhancement of all NUR courses. Graduates are thus particularly well prepared for the rapidly expanding areas of nursing need and the most recent graduate survey results indicate that all respondents are employed in a variety of health care settings reflective of the curriculum.

STUDENT LEARNING OUTCOMES

- Incorporate knowledge and skills gained from the communication arts, information technology and the social and biological sciences into nursing practice.
- Utilize the caring model to safely meet the health needs of clients of all ages in a variety of settings.
- Apply the nursing process as a creative problem solving approach in the delivery of client-centered care to culturally diverse clients.
- Incorporate evidence-based practice using critical thinking in decision-making situations when caring for clients.
- Incorporate effective communication in interactions with clients, families, significant others and health care providers.
- Implement client/family health teaching along the health-illness-healing continuum.
- Collaborate with clients, families, significant others and health care providers in creating a protective, supportive and/or corrective environment for clients.
- Incorporate legal and ethical principles into safe nursing practice.
- Demonstrate accountability by utilizing quality improvement concepts in the management of care.
- Function as a client advocate in the health care system.
- Continue life-long learning activities and professional development.
- Maintain involvement in community-based service.
**REGISTERED NURSE LICENSURE**

A license to practice as a registered professional nurse in New York State is granted to graduates of nursing programs approved by the State Education Department who are at least eighteen years old, are of good moral character*, and have passed the licensing examination of the State Board of Nursing. Graduates are eligible to take the licensing examination at any time following graduation.

* Part 28  
**DETERMINATION OF GOOD MORAL CHARACTER IN THE PROFESSIONS**

**Section 28.1 Determination of Good Moral Character.**  
The determination of whether an applicant for authorization to practice a profession, under title VIII of the Education Law, is of good moral character shall be made in accordance with the procedures specified in this part.

**Section 28.2 Information**  
All information indicating that an applicant has been convicted of a crime, or has committed an act of which raises a reasonable question as to the applicant’s moral character shall be referred to the executive director of the Office of Professional Discipline or his or her designee.

* The College’s Wellness Center may be able to provide the physical examination based upon availability of appointments and free MMR (Measles, Mumps and Rubella), Influenza, PPD Skin Test, Tdap (Tetanus, Diphtheria, Pertussis) and Hepatitis B.

*Submission of laboratory titers for NYS immunization requirements are required
Admission criteria into the Introductory Courses of the Nursing Curriculum
• A high school diploma or its equivalent (GED);
• Pre-requisites for BIO 2311: BIO 1101 and BIO 1101L with a minimum grade of C, a college level General Biology Course with Lab, or a score of 85 or above on the Biology Regents exam (with Lab).

Introductory Term Requirements
Prior to clinical nursing coursework, all students must complete the 13-14-credit introductory sequence, with a minimum cumulative index (grade point average) of 2.5 in the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 2311</td>
<td>Anatomy and Physiology I</td>
<td>4</td>
</tr>
<tr>
<td>PSY 1101</td>
<td>Introduction to Psychology</td>
<td>3</td>
</tr>
<tr>
<td>ENG 1101</td>
<td>English Composition I</td>
<td>3</td>
</tr>
<tr>
<td>MAT 1190</td>
<td>Quantitative Reasoning</td>
<td>3</td>
</tr>
<tr>
<td>or MAT 1275</td>
<td>Introduction to Mathematical Analysis</td>
<td>4</td>
</tr>
</tbody>
</table>

Students may repeat only one of the introductory courses in order to meet the 2.5 grade point average in the 14-credit introductory course sequence needed for admission to the first semester nursing courses. When an introductory course grade is a “D” or an “F”, the student must repeat the course and the grade on the second attempt will be counted for the introductory sequence. A student may not repeat a course in which the initial grade was a “C” or better. When a student has received a “C” or better on more than one introductory course but has not received a “D” or “F” in an introductory course, the student may replace only one of the introductory course grades with the grade of the next level course to raise their G.P.A. (ex. ENG 1121 for ENG 1101; BIO 2312 for BIO 2311; PSY 2301 for PSY 1101; or MAT 1375 or higher or MAT 1272 for MAT 1275). Students with a higher level of Math (MAT 1375 or higher) will have their grade weighted.

Students must have an overall grade point average of 2.5 to be admitted to the first semester nursing courses. A student must have a minimum grade of “C” in each of the introductory courses with a minimum 2.5 grade point average in the 13-14-credit introductory course sequence. While the standard in the introductory sequence is the minimum standard for consideration of advancement to the clinical phase of the program, it does not guarantee progression into the clinical phase. The stronger the group of applicants in any given semester, the higher will be the index needed in the introductory sequence for consideration of advancement to the clinical phase of the program. Because of capacity limitations, students who have completed the introductory phase with the minimum 2.5 index or higher will be numerically ranked each semester and seats will be allocated on the basis of the highest cumulative average in the introductory sequence, as space permits. Due to the high number of applicants to the clinical phase of the nursing program in the past two years, the average G.P.A, for acceptance to the nursing program has been approximately 3.0 or higher.

All introductory students are required to take the Test of Essential Academic Skill (TEAS) or the equivalent during the introductory semester to be used as an additional criterion for admission. Minimum score(s) as determined by the Nursing Department will be required for admission. Students must have completed the TEAS exam within (1) year of their application to the clinical phase of the Nursing Program. Students can repeat the TEAS exam one time. For more information about registering for the test, see the Nursing Department Website.

Progression in Nursing
Once the student is admitted to NUR courses, the following policies will be in effect:

a. A minimum grade of “C” in each course designated with the prefix NUR (NUR 1010, NUR 1030, NUR 1110, NUR 1130, NUR 2110, NUR 2130, NUR 2210, NUR 2230) and BIO (BIO 2312, BIO 3302) is required.

b. Requirements for Passing Each Nursing Course
   * A grade of satisfactory “S” in the clinical component.
   * Completion of the Kaplan Integrated Testing Program or the equivalent.
   * Six hours of community service per semester
c. Prior to the first clinical experience each semester, students must demonstrate competency in Med-Math to be certified as safe to administer medications in the clinical area.

d. For students repeating NUR 1030, 10% of allocated seats will be given to repeaters. Priority selection will be based on course numerical grade achieved in NUR 1030.

e. The student may repeat only TWO nursing courses with a clinical component (NUR 1030, NUR 1110, NUR 1130, NUR 2110, NUR 2130, NUR 2210, NUR 2230). A committee of nursing faculty will review requests for waiver of this policy.

f. NUR courses must be passed on the second registration.

g. On the second registration attempt for a clinical nursing course, the student will be considered for registration based on space availability. Priority selection will be based on course numerical grade achieved in the course being repeated.

h. NUR 2210 and NUR 2230 students are required to participate in the NCLEX-RN Advisement Program, which includes the Kaplan NCLEX Prep Program.

i. Students are expected to adhere to policies as outlined in the NYCCT Catalog, the NYCCT Student Handbook and the Department of Nursing Student Handbook.

j. Students who withdraw from NUR 1030 will be entered into the next admission pool. There is no guarantee of readmission to the program for those who withdraw.

Grading Policy for all Courses Designated with the Prefix NUR

<table>
<thead>
<tr>

<td>1.0</td>
</tr>
<tr>
<td>Below 60</td>
<td>F</td>
<td>0.0</td>
</tr>
</tbody>
</table>

*An A grade of “C” is the minimum passing grade for Nursing (NUR) courses.* Students must repeat any nursing courses in which they receive a “D” or “F” in the theory component and/or an unsatisfactory grade in the clinical component (subject to the limits on repetition of NUR courses listed above).

Transfer into the Nursing Curriculum

Students who wish to transfer into the nursing curriculum from other college curricula must have completed the criteria for placement in the nursing curriculum and introductory term. To be eligible for admission into the nursing program, transfer students from other colleges must be in good academic standing, not on academic probation, not academically or administratively dismissed and not barred from continuing enrollment in the nursing program at previous college(s). Transfer students from other colleges must be registered at New York City College of Technology for at least one semester prior to being ranked for entry into the clinical nursing courses. Transfer students must be matriculated and completed a full fall or spring semester at NYCCT; non-degree student status does not count. Enrollment for a summer session only does not count. They must meet the criteria for admission into the nursing curriculum and introductory semester, and **must earn a 2.5 or higher cumulative index** in the introductory course sequence to be considered for progression into the clinical program. Students will be numerically ranked for advancement into the clinical phase of the program, as space permits. Any introductory course completed at another college must have a letter grade for computation of index. To receive transfer credit for the required sciences, students must
have completed **Anatomy and Physiology I & II, and Microbiology within five (5) years** of their acceptance to the clinical phase of the nursing program.

**Readmission to Nursing**
Students who have not registered for nursing courses for two consecutive semesters will be readmitted to nursing on a space-available basis and the achievement of a minimum grade of 75% on a comprehensive nursing examination of previously completed nursing coursework.

**Graduation from the Nursing Program**
A minimum cumulative grade point average of 2.0 in the required 66-67 credits is necessary for graduation from the nursing program. **The clinical nursing courses must be completed within five (5) years.**

**NURSING DEPARTMENT REQUIREMENTS**

The College will grant an associate in applied science (AAS) degree with a major in nursing upon satisfactory completion of the required 67 credits listed below.

**REQUIRED COURSES IN THE MAJOR**

**TOTAL CREDITS REQUIRED FOR THE DEGREE**  
66-67

1 Students without the requisite science background for BIO 2311 may have to take BIO 1101 in preparation. This will increase the total number of credits required for the degree by four (4).

2 Students without the requisite math background for MAT 1275 may have to take MAT 1175 in preparation. This will increase the total number of credits required for the degree by four (4).

\(^1\) These courses must be completed successfully before taking any nursing courses. Students are required to provide evidence of computer literacy. A self-paced process of certification is available through the College Learning Center at no cost or credit to the student.

\(^2\)WI=Writing Intensive

Note: NUR Courses require permission of the department for registration.

\(^3\) See page 37 *NYCCT 07/09 Catalog* for a detailed explanation of core-required courses and categories.
NURSING COURSES (NUR)

NUR 1010 MEDICATION CALCULATIONS IN NURSING
1 cl hr, 1 cr

This course introduces the student to measurement systems and dosage problems for selected routes of drug administration. Emphasizes the application of basic mathematical operations needed for solving dosage calculation problems.
Prerequisites: BIO 2311, PSY 1101, ENG 1101, MAT 1275 or higher
Corequisites: BIO 2312, PSY 2301, NUR 1030

NUR 1030 FOUNDATIONS OF CARING (WI)
4 cl hrs, 6 lab hrs, 6 cr

Using the framework of Watson’s caring model, this course introduces the student to nursing practice. Emphasis is on learning how the nursing process can be used to meet the client’s human needs, primarily survival and functional needs. Students learn consideration of the client’s social, cultural and spiritual values within the health-illness-healing experience. In the laboratory, students develop the technical skills needed for client care in community, long-term and acute settings.
Prerequisites: BIO 2311, PSY 1101, ENG 1101, MAT 1275 or higher
Corequisites: BIO 2312, PSY 2301, NUR 1010

NUR 1110 CARING FOR CLIENTS WITH COMMON ALTERATIONS IN FUNCTIONAL NEEDS
3 cl hrs, 6 lab hrs, 5 cr

This course builds on the knowledge and skills attained by the students in the previous nursing course Foundations of Caring (NUR 1030). Using Watson’s caring model, the student learns to apply the nursing process in acute care settings to meet the needs of clients experiencing common alterations in human functional needs. Theory includes conditions that interfere with integument, mobility, sensory functioning, endocrine functioning and urinary elimination in various age groups.
Prerequisites: BIO 2312, PSY 2301, NUR 1010, NUR 1030
Corequisites: BIO 3302, NUR 1130

NUR 1130 CARING FOR CLIENTS WITH COMMON ALTERATIONS IN SURVIVAL NEEDS
3 cl hrs, 6 lab hrs, 5 cr

This course builds on the knowledge and skills attained in the previous nursing course Foundations of Caring (NUR 1030). Using Watson’s caring model, the student learns to apply the nursing process in acute care settings to meet the needs of clients experiencing common alterations in human survival needs. Theory includes conditions that interfere with fluid and electrolyte balance, nutrition and oxygenation in various age groups.
Prerequisites: BIO 2312, PSY 2301, NUR 1010, NUR 1030
Corequisites: BIO 3302, NUR 1110
NUR 2110 CARING FOR CLIENTS WITH COMPLEX ALTERATIONS IN SURVIVAL AND FUNCTIONAL NEEDS (WI)
3 cl hrs, 6 lab hrs, 5 cr

In this course, the student learns to use Watson’s caring model to meet the needs of clients in various age groups with altered cell growth (cancer), complex alterations in nutrition and oxygenation and neurological status. The focus is on the use of information technology, evidence-based practice and the nursing process to facilitate decision-making in the care of selected clients and families in acute care settings. Students also learn the role of the nurse in provision of care to victims of mass casualties and acts of bioterrorism. Prerequisites: BIO 3302, NUR 1110, NUR 1130
Corequisites: NUR 2130

NUR 2130 CARING FOR CLIENTS WITH ALTERATIONS IN INTEGRATIVE NEEDS
2 cl hrs, 6 lab hrs, 4 cr

In this course, the student continues to use the framework of Watson’s caring model to study and care for clients with alterations in integrative needs. Emphasis is on applying the nursing process to the care of clients with affective, thought, anxiety, personality and addictive disorders; and children with adjustment disorders. The student will integrate mental health concepts, principles of human relationships and interpersonal skills in caring for selected clients in a therapeutic environment. Prerequisites: BIO 3302, NUR 1110, NUR 1130
Corequisites: NUR 2110

NUR 2210 CARING FOR CLIENTS WITH CHRONIC ALTERATIONS IN HUMAN NEEDS
3 cl hrs, 6 lab hrs, 5 cr

In this course, the student continues to use the framework of Watson’s caring model to meet the needs of clients in various age groups with chronic alterations in nutrition, bowel elimination, urinary elimination, sensory/motor functioning, oxygenation, tissue perfusion and immune responses. Focus is on the application of the nursing process to manage the care of clients and groups of clients in acute care, long term care, and community health settings. Prerequisites: NUR 2110, NUR 2130

NUR 2230 CARING FOR CLIENTS AND FAMILIES WITH GROWTH SEEKING NEEDS
3 cl hrs, 6 lab hrs, 5 cr

In this course, the student continues to use the framework of Watson’s caring model in meeting the growth-seeking needs of childbearing clients and their growing families. Emphasis is on family centered health care and health teaching of childbearing clients and families in ambulatory and inpatient care settings. Students use the nursing process to organize care for clients with alterations in growth-seeking needs. Prerequisites: NUR 2110, NUR 2130
NEW YORK CITY COLLEGE OF TECHNOLOGY

DEPARTMENT OF NURSING
ASSOCIATE DEGREE PROGRAM

Mission Statement of the Associate Degree Program

The Associate Degree Program in Nursing is designed to provide graduates with the knowledge and competencies necessary for safe, evidence-based collaborative nursing practice in today’s fast paced health care system. This includes the ability to provide safe client-centered care to culturally diverse clients in a variety of urban practice settings. The human caring process is an essential component in meeting the needs of clients, families and communities and providing them with a protective, corrective and/or supportive environment. Upon completion of the Program, graduates will have the foundation to pursue a baccalaureate degree in nursing.

Organizing Framework

The organizing framework of the Associate Degree Nursing curriculum reflects the American Nurses Association Standards of Practice, the NLN Educational Competencies for Graduates of Associate Degree Nursing Programs, the Quality and Safety Education for Nurses (QSEN) and Watson’s Caring Model. Watson’s Caring Model encompasses art, science, humanities and spirituality in the formation of a humanistic-altruistic system of values. Watson’s carative factors include the development of helping-trusting, human caring relationships and the systematic use of a creative problem-solving process. The provision for a supportive, protective and/or corrective mental, physical, societal, spiritual environment is important in Watson’s theory.

The nursing curriculum incorporates knowledge from the arts, sciences and humanities into nursing practice. Communication is an important concept in the nursing curriculum as it is the first step in developing a helping-trusting, human caring relationship and is necessary for collaboration with the interdisciplinary team. The role of the nurse as client advocate is an integral component of the caring relationship. Ethical issues are integrated in the curriculum as the student moves from the analysis of personal values to ethical decision-making in nursing practice. The curriculum utilizes the nursing process for creative problem solving with culturally diverse clients and families across the lifespan. The curriculum provides opportunities for the integration of critical thinking and evidence-based practice in providing safe, competent care to clients. Instructional technology, which enhances student learning, is incorporated throughout the curriculum.

The philosophy and outcomes for the nursing unit were developed by the Curriculum Committee and accepted by the Faculty Committee. The beliefs of the faculty concerning nursing practice, the practice of the associate degree nurse and nursing education are clearly identified.
**Appeals**

The Appeals Committee is responsible for reviewing written appeals from students concerning absences or other academic policies. The committee discusses the student’s concerns and makes appropriate recommendations. Students should fill out an appeal form that can be obtained in the Nursing Department office. Students will be notified of the Committee’s decision as soon as the Committee makes a decision. The Committee meets at regular intervals throughout the semester. Students should also refer to the College Catalog for the College Appeals process regarding grades and complaints.

**Criminal Background Checks and Drug Testing**

Current laws generally permit a state licensing board or agency to deny a license to practice nursing if the applicant has been convicted of a felony or other specified crime. Like many state licensing boards, the Office of the Profession of the New York State Education Department requires that a criminal background be reported and investigated prior to granting a license to practice nursing.

The New York City College of Technology does not require a criminal background check for admittance, but the School’s education requirements include placement at one or more hospitals or other off-campus clinical training sites, and these sites frequently require a student to pass a criminal background check before the student can be placed for clinical training. Therefore, all clinical students will be required to have a criminal background check completed prior to the start of the initial clinical practice experience. The cost for this clinical requirement is the student’s responsibility.

A student may also have to complete more than one criminal background check during the course of the Nursing program at New York City College of Technology, depending on the number of sites where you are placed and the requirements of each site.

If the student receives a negative incident finding from a criminal background check result, the student must resolve that issue before the start of the clinical practice experience. This may require that the student withdraw and not be permitted to register for the course for the semester until the issue is satisfactorily resolved. There are NO alternative clinical placements.

Please note that if a student is not permitted to take part in a clinical practice experience required by the program based on the results of a criminal background check, the student may be unable to complete the course requirements. It is important for a student to consider this before enrolling in the Nursing Program. New York City College of Technology has no obligation to refund your tuition or fees or to otherwise accommodate you in the event you are ineligible to complete your course requirements based on the results of a criminal background check, or if you are denied a license to practice nursing.

**Employment**

Job opportunities for nurses seeking employment in NYC hospitals for associate degree graduates in the NYC area are limited at this time. Employers prefer to hire nurses with a baccalaureate degree in nursing. Many graduates enroll in NYCCCT RN-BS Program in order to find improved job opportunities.

**Student Email**

For information about NYCCT email, please refer to the NYCCT Student Handbook.

**Academic and other Resources**

There are many resources available for students at NYCCCT. Please check the NYCCCT College Catalog and NYCCCT Student Handbook for further information about the Library. The Nursing Department has many...
academic resources that are available to nursing students. Among these resources are DVDs in both the NELL Lab in the Nursing Department and in the campus library.

**Absenteeism/Lateness**
To meet the educational objectives of each course, students should attend each clinical and class section. To allow for illness and personal emergencies, a policy regarding absenteeism and lateness has been established as follows:

**Absence in the Clinical Placement:**
1. One clinical absence is permitted.*
2. Students who have two absences (and/or combined lateness) **must withdraw** from the clinical course.
3. Students may appeal this policy, using the departmental appeal policy form. The Appeals Committee, comprised of nursing faculty, will review extenuating circumstances.

**Lateness in the Clinical Placement**
1. Two latenesses are permitted and are equal to one absence.*
2. Students will be considered late if they are not present at the beginning of class or pre-conference.
3. Students who are late for the third time (or who have a previous clinical absence) must withdraw from the clinical course.
4. Students may appeal this policy, using the departmental appeal policy form. The Appeals Committee, comprised of nursing faculty, will review extenuating circumstances.

*A student who has one (1) absence or two (2) latenesses will be advised by her/his faculty in writing on the Departmental Attendance Referral Form to meet with the theory faculty prior to her/his next clinical experience.

Please note that documentation of absence or lateness is required. This documentation does not negate the absence, but remains as part of the student’s attendance record.

THIS POLICY WILL BE STRICTLY ENFORCED.

**Malpractice**
CUNY hold malpractice insurance for students. There is no need for students to purchase malpractice insurance.

**Social Media/HIPPA**
Posting any information related to a client’s diagnosis or treatment on social media can result in dismissal from the nursing program. Client information is shared only with members of the health team directly responsible for care. Students are also not to discuss information on elevators or in public spaces in the hospital. Students may not access any information on a hospital medical information system that is not related to their assigned client. Students must comply with the code of conduct outlined in HIPPA training.

**PHYSICAL EXAMINATION:**
A. Each student must comply with health requirements through the Castlebranch. **Each semester** prior to the first day of class a completed annual physical examination **is required**. Agency contracts require the following:
   1. Physical examination
   2. Tdap: Tetanus, diphtheria, acellular pertussis
   3. Hepatitis B Vaccine series (3 vaccinations) **
   4. Tubercular Skin Test (TST)/ or Quantiferon
   5. Chest x-ray if PPD/Mantoux is positive.
6. Urinalysis  
7. Complete Blood Count (CBC)  
8. Varicella Titer: **NUMERICAL VALUE REQUIRED** (if non-immune>TWO Varicella vaccinations required). Lab documentation verifying varicella titer required. 
9. Measles/Mumps/Rubella (MMR) Lab documentation is required. Students must demonstrate immunity. 
10. Seasonal Flu Vaccine  

Some clinical agencies may require additional items prior to your experience at that agency and you will be notified accordingly. 

**Students who are not vaccinated against Hepatitis B are required to sign waivers. Hepatitis B Vaccine series (3 vaccinations) will be provided by CUNY at no charge to the student.** 

**Clinical Requirements** 

Effective June, 2015, students must obtain clinical clearance from Castlebranch prior to enrollment in a course with a clinical component. 

Students are required to submit health clearance, CPR, drug test, HIPAA and Infection Control mandatory training) to CastleBranch. CastleBranch will provide a list of cleared students to the Department Chair. The clinical documentation required for each clinical nursing course and responding to the need of the respective health care facilities for timely submission of student documentation, the following is approved: 

- Annual documentation of health clearance and CPR will be due on a specified date prior to the onset of the new semester. 
- The students will be informed in writing of the date due prior to the final examination in the semester that they are currently enrolled. 
- If the student is not cleared by CastleBranch prior to the designated date, the student’s registration will be dropped. 
- Students, who are dropped and subsequently cleared by CastleBranch will then be registered during the assigned college semester registration date(s) on a space available basis. The student is not guaranteed a seat for the semester course(s). 

In order to comply with these standards students should 

- Make an appointment with their health care provider to fill out health clearance forms. 
- Register for an account with CastleBranch. 
- Complete HIPAA and Infection Control mandatory training through Medcom 
- Drug screening must be done through CastleBranch, not your primary provider. 
- The Flu shot is due October 1 of each year. 

**Health clearance is due about one month before attendance at a clinical site.** Student must agree to release medical information to clinical partners if requested by the clinical site. In addition to the health requirements indicated on the physical examination form, affiliating clinical agencies may require additional screenings such as for drug use, and past criminal conduct, fingerprinting etc. 

Students MUST comply with all clinical requirements. Failure to do so, or obtaining a negative finding and/or positive result (criminal background check, urine toxicology, etc) will result in immediate dismissal by the clinical agency, and required withdrawal from the nursing course(s). If a student is dismissed from a clinical agency, there will be no alternative clinical placement assigned.
CARDIO PULMONARY RESUSCITATION (CPR):
Each student must show completion of CPR certification for Adults, Children and Infants and use of the portable cardiac defibrillator (AED). Students may take either the American Red Cross or Heart Association Health Professionals certification course. Off site CPR classes are scheduled each semester on weekend days for the students’ convenience.

All students must be clinically cleared in order to attend clinical experiences in hospitals.

STUDENT UNIFORMS:
The following is unique to the Nursing Program. It is mandatory that all nursing students comply with all components of this policy. Failure to adhere to this policy will result in the student being sent home from the Clinical Laboratory and receiving an absence for the day.

Full student uniform is required at all times in the Clinical Laboratory & College Laboratory unless otherwise specified by the instructor.

A. Students are expected to wear a freshly laundered and pressed scrub to each clinical/college laboratory experience.

B. Female students can wear the uniform dress scrubs. The length of the female dress uniform should be at least knee length.

C. Shoes: Clean regulation white shoes are required and shall be worn in good repair. No sneakers or clogs are allowed.

D. Stockings: White stockings only should be worn. Male students must wear white socks. Female students may wear white socks with pant uniforms only.

E. Emblem and I.D:
   1. Regulation school emblem should be centered and worn on the left sleeve. The uniform company will provide this on each uniform ordered.
   2. Students wear their college ID in a plastic holder that is sold in the bookstore. College I.D. should be available on person at all times. Some hospitals issue an additional ID card. This card must be worn at all times.

F. Equipment:
   1. Personal electronic device for uploading e-books.
   2. Stethoscope.
   3. Wrist watch with second hand.
   4. Pen: black ink and red ink pens with non-erasable ink.
   5. Bandage scissors should be carried in pocket of uniform.

G. Jewelry: The only jewelry permitted with uniform is as follows:
   1. One band ring per hand. No raised stone rings.
   2. No hanging earrings. One pair only of small button earrings for pierced ears.

H. Nail Care:
   1. Nail length should be of conservative nature (not greater than ¼ inch from end of finger).
2. NO artificial nails are allowed (to comply with policies of health care institutions).
3. Nails should be clean. Clear nail polish only, if desired.

I. **Make-up:** Make up shall be conservative in nature. All body tattoos should not be visible when student is in clinical uniform.

J. **Hair Care:** The hair should be worn above the uniform collar. No ornaments are allowed in the hair. Hair color should be conservative.

K. **Exception to Uniform Policy:**

1. Students with Religious Observance:
   a. Modified headpiece.
   b. Uniform pants.
   c. Uniform top with long push-up sleeves in white

2. Dress Code for NUR 2130 and Field Experiences (Senior Citizen Centers Child Care Centers)
   a. Female students may wear slacks, skirts, and blouses. No sneakers, no high heels, no jewelry (except according to policy), no heavy make-up, no ornaments in the hair, no jeans, no tight clothing, no sweat suits.
   b. Male students may wear slacks, shirts, sweaters, and a plain wedding band. No sneakers, no jeans, no chains, no bracelets, no tight pants, no sweatshirts.

**Tape Recording of Classes**
Tape recording will be allowed at the discretion of the nursing faculty. You should inquire about the use of tape recorders prior to the first class session of each nursing course. No student tape recorders are allowed on the faculty’s desk during class.

**Examinations**
Med-Math Requirement: Each semester, the following departmental policy for Med-Math Requirement is required for students entering NUR 1110, 1130, 2110, 2130, 2210 and 2230.

**Student Activities**
The Department of Nursing has an active student association called NUTRIX, which is under the Student Government Association. Active participation in this club is encouraged. This will provide the student with the opportunity to become acquainted with other nursing students, and to work cooperatively on community and extra-curricular activities on the local and national levels. The NUTRIX Club sponsors educational programs as well as fund raising activities open to the college community.

**Student Participation in Program Meetings**
Students are strongly encouraged to attend various Program meetings to provide faculty with their views on departmental activities that affect their learning and success. Department meetings are on Thursdays. The schedule is distributed at the beginning of each semester.
Awards are presented at Graduation to students who meet the following requirements:

1. **THE NURSING DEPARTMENT AWARD** – Presented by the Nursing Faculty to the student with the highest academic average in four continuous semesters.

2. **THE NUTRIX CLUB AWARD** - Presented to the student who demonstrates academic merit and is a past or present officer or active committee member of the NUTRIX Club.

3. **THE AURORA CARIAGA GAMBOA AWARD** – Presented to the student with the second highest academic average in four continuous semesters.

4. **THE HENRY W. WENTZ AWARD** - Presented to the student who has demonstrated overall academic achievement and excellence in Psychiatric/Mental Health Nursing.

5. **THE RAMON F. CORTES AWARD** - Presented to the student with the highest G.P.A. whose country of origin is other than the United States.

6. **CERTIFICATE OF APPRECIATION** - Presented to the student who has contributed exceptional service to the Department of Nursing.

7. **THE ALUMNI ACHIEVEMENT AWARD*** - Presented for service to the Nursing Department, the College and Community.

* Although the Nursing Department does not present this award, nursing students are eligible for this award, which is presented by the College Community.

A **Nursing Pinning Ceremony** is held twice a year in January and June for graduating seniors. This activity is student-oriented and supported by faculty.
Examination Policy

In order to optimize the testing environment for all of our nursing students and to support the integrity and security of its examinations, the faculty of the Department of Nursing will enforce the following guidelines:

1. Students with disabilities and/or learning differences are entitled to receive reasonable accommodations to support their learning in the college. After an intake appointment and assessment of student documentation, students who are registered with the Accessibility Center (A237) are entitled to receive reasonable accommodations to support their learning in the college. Students may enroll with the program throughout the year and are responsible for alerting faculty to accommodations needed.
2. There will be no student access to personal items including but not limited to: backpacks, beverage or food containers, books, caps or hats, cell phones, coats/jackets/outerwear with pockets, notebooks, or other electronic devices in any testing area.
3. Cell phones are to be turned off while in any testing area.
4. Content areas of weaknesses identified on the exam may be reviewed at faculty’s discretion. The Nursing Department is transitioning to testing in Blackboard.

Student Absence during an Examination

In the event of an absence from an examination, it is the responsibility of the student to notify the corresponding course faculty within 24 hours. Notification must be made to the corresponding faculty’s NYCCT email address. A determination at the faculty’s discretion will then be made whether a makeup examination is warranted. The student will be charged the college fee of $25.00 for each makeup examination, which is payable to the Bursar prior to the scheduled makeup examination. Progression on to the next examination cannot occur until a missed makeup examination is completed. Makeup examinations must be completed prior to the next unit examination. **Five (5) points will be deducted for makeup unit examinations and ten (10) points will be deducted for the makeup Final examination.** A grade of zero (0) will be assigned for any missed makeup examination, not taken at the scheduled time.

Student Lateness for an Examination

A student who is late for an examination will be required to complete the examination in the remaining examination period, extra time will not be given. Once a student leaves the examination area they cannot return. The course faculty will determine exceptions.

Cheating/Plagiarism/Unfair Advantage

The Department of Nursing at New York City College of Technology views cheating, plagiarism, and gaining unfair advantage through access to any examination content as serious offenses. Students suspected of cheating, plagiarizing or gaining unfair advantage may receive a zero for the assignment or examination and will be subject to further disciplinary action by the College. For more information refer to the New York City College of Technology Policy on Academic Integrity.

DIRECTIONS FOR THIS EXAMINATION:  

1. Any and all electronic or recording devices **MUST** be removed from the exam area and turned **OFF completely.** No backpacks, books, caps/hats/hoods, containers, drink, food, notes, paper or purses allowed within the exam area. Any violation of this may result in exam failure and further consequences. 

2. Write your name on the examination paper cover sheet in **blue or black ink /pen ONLY.**  

3. Follow important directions for marking answer sheet:  
   a. **Use a No. 2 pencil.**  
   b. Do not use ink or ballpoint.  
   c. Fill out form on hard surface.  
   d. Make heavy marks that fill in the circle **completely.**  
   e. Erase any changes **completely.**  
   f. Make no stray marks.  

4. On the answer sheet provided, fill in your name, your EMBLID ID, the date, and the exam version before the exam starts.  

5. Unit exams for clinical courses consist of 50 multiple-choice questions: 60 minutes are allowed to complete the exam. The final exam consists of 50-100 questions: This is a timed test using NCLEX guidelines.  

6. Students are **NOT** to leave the examination area. Extra testing time **WILL NOT** be granted to a student who arrives late for an examination. Once a student leaves the examination area they **cannot return.**  

7. Read each question carefully. Select the **BEST** answer (s).  

8. It is recommended that as each answer is selected, you record immediately on the answer sheet. The time allotted for the exam includes the completion of the answer sheet. At the end of the exam, additional time **WILL NOT** be given for the transposing of answers from the examination paper to the answer sheet.  

9. The student’s grade for this examination will be based on the answers recorded on the **answer sheet only.** Erase any stray marks from the answer sheet.  

10. At the end of the exam, the instructor will collect the exam paper and answer sheet. **ALL STUDENTS MUST FOLLOW INSTRUCTORS DIRECTIONS FOR TEST COLLECTION.**  

11. When a student requires a make-up exam (for a legitimate absence), the Course Coordinator & Nursing Departmental Chair may grant permission. The Bursar’s Office charges a special examination fee of $25.00 and five (5) points will be deducted for Unit Examinations and ten (10) points will be deducted for the Final Exam.  

I have read the instructions above and agree to abide by the College/Nursing Departments Academic Integrity Policies. I understand that any violation of the above policies will be considered a breach (break) of academic integrity and the student will be subject to exam failure and possible expulsion (dismissal) from the Nursing Program. Please sign below in **blue or black ink pen ONLY.**
