## Memorandum of Understanding Advanced Standing / Transfer Credit Agreement

Between

**New York City College of Technology/CUNY  
Department of Construction Management & Civil Engineering Technology**

and

**High School for Construction Trades, Engineering & Architecture (HSCTEA) – Architecture Program**

### Overview

A relationship has been established between the Construction Management and Civil Engineering Technology (CMCE) Department of New York City College of Technology and the HS for Construction Trades, Engineering and Architecture – Architecture Program, that will enable successful graduating high school students to receive advanced standing towards the completion of the requirements for the Associate in Applied Science degree in either Construction Management or Civil Engineering Technology.

**The Department of Construction Management & Civil Engineering Technology at New York City College of Technology of The City University of New York agrees to collaborate as follows:**

- Conduct an annual curriculum review of the construction program.
- Support recruitment activities for students interested in the Construction Management and/or Civil Engineering Technology program at City Tech.
- A CMCE faculty member will serve as a member on the HSCTEA Self Study Team
- Provide career information and support to HSCTEA students.
- Assistance in developing College Now affiliations

**The roles and responsibilities of HS Construction Trades, Engineering and Architecture:**

- Ensure that student[s] applying to City Tech will have successfully completed the HSCTEA program in Architecture.
- Provide a career guidance program in grades 9 - 12 that allows students to make informed career choices in the areas related to careers in Construction Management and Civil Engineering.
- Support students' efforts towards achieving their academic and career goals through the use of intensive advisement and appropriate interventions
- Design, review and upgrade curriculum and program standards that will provide a smooth transition from high school programs to post-secondary programs.
- HSCTEA will appoint a CMCE faculty member to serve on the HSCTEA Self Study Team.

**NEW YORK CITY  
COLLEGE OF TECHNOLOGY**

Students who complete the high school curriculum as listed under the agreement and meet the required criteria will be assisted in enrolling in the Associates of Applied Science in Construction Management or the Civil Engineering Technology degree program.

- Students must have earned a NYS endorsed CTE Diploma at the time of enrollment.
- Students matriculating in Construction Management or Civil Engineering must meet the CUNY skills proficiency requirements in reading, writing, and mathematics.
- Students must have a GPA of 75+, an ELA Regents score of 75+, and pass two of the following three Math Regents with a score of 75+: Integrated Algebra, Geometry or Algebra 2 and Trigonometry.
- Upon admission to either the associate degree in Construction Management or Civil Engineering Technology, an **Official Transcript** must be presented, indicating successful completion of all required examinations and course requirements for the HS Construction Trades, Engineering and Architecture courses identified below,

**Agreement**

Students who have satisfied the above requirements will have the option to receive advanced standing in CMCE 1110 CMCE 1211 and CMCE 2410 as shown in the Table below. An equivalent number of department approved elective course credits would be substituted in the program of study in order to meet the New York State requirements for an associate degree in Construction Management or Civil Engineering Technology as indicated below. This agreement will be in effect for five [5] years from the date of execution. Renewal of this document with appropriate content changes will be discussed at the end of the time period.
