

**ARTICULATION AGREEMENT BETWEEN
NEW YORK CITY COLLEGE OF TECHNOLOGY, ARCHITECTURAL TECHNOLOGY
DEPARTMENT
AND
NYC DEPT. OF EDUCATION, OFFICE OF POST SECONDARY READINESS**

New York City College of Technology, CUNY (NYCCT) hereby establishes an articulation agreement for students completing a course of study in Architecture and/or Drafting in a high school CTE program.

This agreement is in full recognition of current transition of post-secondary curricula of the NYCCT Architectural Department toward NAAB Accreditation. The purpose of this agreement would be to strategically align respective program interests for a term of five years. In this term, NYCCT reserves the right to annual review of this agreement for modifications or additions.

Architectural Design and Drafting students from approved CTE programs and have been accepted into the college for direct admission into a baccalaureate or associates program will be:

- Guaranteed admission into the Architectural Technology Bachelors program, on a space availability basis after meeting the colleges posted admissions criteria.
- After the NAAB status is finalized, the Architectural Department will decide whether to grant eligible students the opportunity to apply for advanced standing in introductory courses pending a portfolio review of CTE coursework by NYCCT teacher faculty. To qualify design projects must be comparable in quality and complexity of work executed by current Architectural Technology Students. Recommendation letters, awards, and academic standing may be considered for review of student competencies. Students will be notified of decisions on advanced placement in writing prior to course start date.

Advanced Standing does not provide college credit for previous High School courses, but recognizes that the student has had prior exposure to introductory concepts within the discipline. Further and/or alternative assessment of student ability may be requested. Students will be required to take additional advanced courses to complete the required credits in the major.

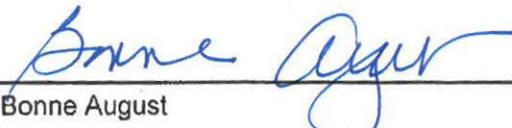

Upon approval of this agreement, all cooperating agencies can publicize in brochures and other recruitment/admissions materials. NYCCT reserves the right to make final determination on advanced placement of students; effort will be made to accommodate all qualified students on a space availability basis.

This agreement shall be in effect upon signing by both parties and revised by mutual agreement of both parties. Curriculum, equipment or facilities may be reviewed at any time per request by either party.

The term of this agreement shall commence as of June 30th, 2017 and shall remain in effect until June 30th 2022. Significant changes in curricula will be taken into account upon yearly review.

Agreement accepted for New York City College of Technology, CUNY by:

Dr. Bonne August
Provost and Vice President of Academic Affairs

12/19/17

Date

Prof. Sanjive Vaidya
~~Acting~~ Chair Architectural Technology Department
