Start your IT career as a System Administrator with Net+ Certification

While some occupations have diminished or disappeared during the pandemic, [IT jobs are seeing an industry boom](#). Entertainment, commerce, and education have moved online, and information security is on every employer's mind. System Administrator and Information Security professionals are well paid and in high demand [and unlike other professions, individuals can move up the IT career ladder](#) to higher-level positions in System Administration and Information Security following the CompTIA Certification Pathway (From **A+** (Computer Repair & Help Desk to **Net+** System Administrator to **Security+** Information Security positions).

Individuals who sit for the Net+ exam (voucher included) will be encouraged to return for our [CompTIA Security+ course](#). The career pathway choice is **yours** to make. [Start here](#).

Note: A+ Certification or equivalent experience is an entrance requirement for this free program.
