New York State Collegiate Science and Technology Entry Program (CSTEP) Application

Welcome to New York City College of Technology!

CSTEP is a student success initiative designed to provide students from underrepresented groups with the support needed to succeed in college. What can CSTEP do for you?

1. Access to small group tutorials or supplemental instruction in biology, chemistry, physics, calculus, and pre- professional pre-requisite courses at the freshman and sophomore levels, and tutoring for higher-level courses at the junior and senior levels.
2. Guaranteed stipends ranging from \$500 per semester to \$3000/year for conducting research with a faculty member. Additional stipend for students active in CSTEP programming.
3. Workshops on career planning and educational opportunities in science, technology, engineering and mathematics, health-related fields, and the licensed professions.
4. Program services and activities that include: personalized academic advisement, access to free summer workshops and/or courses, discounted review for licensing examinations
5. The opportunity to participate in a CSTEP Day of Service in the local community. These events bring a highlight to the experience of CSTEP students in education for the licensed professions, scientific, and technical fields, and to provide an opportunity to showcase community collaboration in utilizing the skills learned in their academic college experience.

Who can apply?

1. Any City Tech student enrolled full-time (12 or more credits) in a major in the sciences, technology, engineering or mathematics or leading to a NY State licensed profession – see attached list of eligible majors
2. New York State resident
3. Member of an underrepresented group - African American/Black, Latino/Hispanic, Native American descent or economically disadvantaged according to NYSED guidelines (see table which follows)
4. Not in ASAP or SEEK
