

Once admitted into the CUNY BA...

Where Do I Study? Where Can I Take Classes?

Almost anywhere! In CUNY BA, each student has a home college in the CUNY system. This is typically a senior college, though some students with fewer than 68 credits are based at community colleges for a time, and it's where you get all of the benefits of campus life. You pay your tuition and handle your financial aid at your home college. You access facilities, clubs, extra-curriculars and student services there too.
