

# LEVERAGING MULTI-DISCIPLINARY PROJECTS FOR COMMUNITY IMPACT

## BUILDING RESEARCH CAPACITY AND INCREASING GRANT SUPPORT

COME JOIN US!

## FACULTY RESEARCH FORUM

THURSDAY, APRIL 11 @ 2 PM

Voorhees Hall V634 or Zoom

[bmendoza@citytech.cuny.edu](mailto:bmendoza@citytech.cuny.edu)

### Discover the IS-CUCO Project

An NSF-funded initiative aimed at integrating cultural, linguistic, data, and infrastructure factors into Information Systems to enhance food-security services. Our goal is to develop inclusive IS that better serve Hispanic and underserved communities.

#### RSVP Link

### Meet Our Team

Join us to discuss the potential and impact of multi-disciplinary reach. We are **multi-disciplinary team from Hispanic Serving Institutions** across the U.S.: City Tech—Brooklyn, CSDH—Los Angeles, NEIU—Chicago, and UTEP—El Paso. Experts in **computer science, social anthropology, linguistics, and more**, working together to build research capacity and train future professionals.

### Faculty Research Forum Highlights:

- **The IS-CUCO Journey:** From proposal preparation to NSF funding.
- **Building Partnerships:** Enhancing City Tech through collaboration.
- **Project Management.**
- **Multi-Disciplinary Research Lifecycle.**
- **Student Recruitment:** Training the next generation.
- **ASEE-NSF Workshops:** Elevating your grant proposal.

Light refreshments will be served. Please RSVP.
