

Open to everyone!
Co-req: MAT 1275

PHYS 1117: INTRO TO ASTRONOMY

Discover our solar system! How did it appear? What do other planets look like?
How do astronomers hunt for signs of LIFE ON OTHER PLANETS?

Discover our cosmic neighborhood! What is our galaxy made of? Can we predict its future? **Is our GALAXY alone in the Universe?**

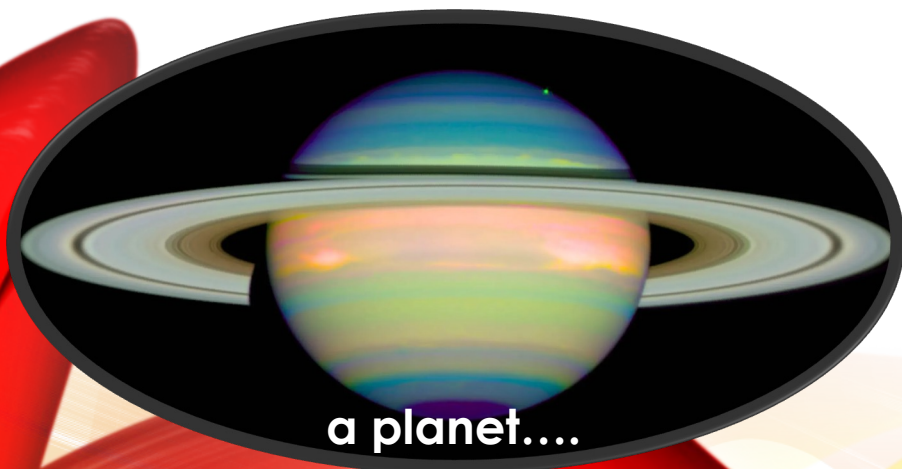

Discover the weirdest objects in the Universe! What is a **BLACK HOLE**? What is one doing at the center of our galaxy?

a black hole....

a galaxy....

a planet....
