BS PROGRAM ADVISEMENT – Spring 2021

DATE	TIME
Wed, Jan 27	2:00 P.M. – 6:00 P.M.
Thu, Jan 28	2:00 P.M. – 6:00 P.M.
Fri, Jan 29	2:00 P.M. – 6:00 P.M.
Mon, Feb 1	2:00 P.M. – 6:00 P.M.
Tue, Feb 2	2:00 P.M. – 6:00 P.M.
Wed, Feb 3	2:00 P.M. – 6:00 P.M.
Thu, Feb 4	2:00 P.M. – 6:00 P.M.
Any other time contact Dr. Sarkar	Tel: 214-773-1013 Email: ssakar@citytech.cuny.edu

***PLEASE NOTE:**

ALL STUDENTS SEEKING ADVISEMENT MUST BRING IN THEIR LATEST TRANSCRIPTS.

OFFICE CONTACT:

During the COVID-19 Pandemic period and the need to practice social distancing, the best way to contact us is by email or visit our website for more program information:

WEB: <http://www.citytech.cuny.edu/radiologic/>

EMAIL: radiologictech@citytech.cuny.edu

Please Note:

Questions regarding Admissions or Transfer should be emailed to admissions@citytech.cuny.edu

Preparing for Advisement

- Note the dates of “open advisement” in your calendar or schedule an appointment by calling 718-260-5360
- Make sure that you have your current academic transcript in hand (unofficial copy acceptable)
- Resolve any registration hold/s if applicable
- Read the schedule of classes in advance
- Think of any academic or career-related questions or concerns you may have
- Plan to register for class early

Cannot Wait to see an Advisor?

- During the month of July, **Dr. Subhendra Sarkar** is available for advisement and admission by email. Please allow up to 48 hours for a response.
 - ✓ Email your inquiry with your background info and Empl ID (when available) to:
 - Dr. Subhendra Sarkar, BSRS Program Director at ssarkar@citytech.cuny.edu
 - You may call at (214) 773-1013 for time-sensitive issues or if you need urgent admission help.
 - ✓ What if I have more questions and advisors are not available?
 - **Go to the website at:**
<http://www.citytech.cuny.edu/radiologic/radiological-science-bs.aspx>

The BS in RS Advisement Session

- Discuss program requirements
 1. Academic performance
 - Cumulative GPA – 2.5 minimum
 2. Four (4) Writing Intensive Courses (2 in Gen Ed, 2 in major)
 3. One (1) Interdisciplinary Course (Can be combined)
- Review your transcript, academic plan and progress
- Discuss and/or select **General, CT or MR Concentration**
- Select courses to register for the upcoming semester

BS in Rad Science Concentrations

- The Bachelor's program has three (3) concentrations that students can choose from. They are as follows:
 - **General**: This option is great for students seeking the degree and already possess advanced certification or have no interest in other modalities.
 - **CT**: This option is great for those who are seeking the degree, as well as advanced certification in CT.
 - **MR**: This option is great for those who are seeking the degree, as well as advanced certification in MR.
- Note: CT and MR include clinical training that is carried out 2-nights/week at hospital affiliates.

BS in RS Admission Requirements

- ❑ Candidates for the BS in Radiological Science must have completed their AAS or certificate program in either radiologic technology, ultrasound, nuclear medicine or radiation therapy.
- ❑ Students must present their board certifications and state licensure during their first advisement session.
- ❑ BS minimum GPA is 2.5.
- ❑ BS Enrollment is open year-round.
- ❑ BS Gen Ed classes are offered in day-time and evening while RAD majors in the evening and online.

Advantages of BSRS Degree

- Radiology is advancing fast, it is not possible to appreciate and apply all important materials within 2 years in an AAS program.
- Beyond AAS, for the next 1.5-2 years, BS students learn advance concepts and integrate multiple modalities like ultrasound, CT, MRI, nuclear medicine, interventional radiology and radiation therapy.
- **MRI & CT specialties are hard and a BS with MR/CT gives just enough time to absorb and practice simple and advance MR/CT methods.**
- Master's are becoming increasingly a necessity in healthcare. A strong BS in RS helps AAS students to appreciate and choose most appropriate Master's suitably, often with scholarships, in the areas below:
Conventional: Public Health, Education, Phys Asst/Radiol Asst, MBA
New ones: **Biomed Eng, NeuroSci, Tissue Eng, Translational Medicine.**
- BS Gen Ed classes are offered in day-time and evening at multiple CUNY colleges while most RAD classes are offered on City Tech campus in the evening and, a limited few, online.

FAQs: BS in Radiological Science

- How many credits can I transfer from my associate degree in RT, US, NM, and Rad Therapy?
 - R. You may transfer up to 66 credits from any of the above programs.
- I have other college credits that are not from my associate degree in medical imaging. Can I apply these credits toward the BS program.
 - R. Yes - as long as these credits are transferable; keeping in mind that **at least 31 credits must be completed at City Tech, called residency credits.**
- I studied from a non-degree, hospital-based RT program. How many credits can I transfer from such a program?
 - R. You may transfer up to 41 credits toward the BS program.
- I like to enroll in BS Rad program, I only have an associate in Liberal Arts.
 - R. **BS Rad is only for medical imaging practitioners with education and licensure in Radiology fields.** If you are not from X-ray, Ultrasound etc as above then you are not eligible for BSRS, **please see our PowerPoint for the AAS in Rad Technology.**
- I work during the day. Can I attend the BS program in the evening?
 - R. Yes – the BS program is ideal for technologists who work during daytime hours.
- What are hospital hours & hospital training duration for MRI or CT programs?
 - R. **Flexible – choose 6-8 hrs/week; approx 10 months needed for full clinical learning .**

FAQs: BS in Radiological Science

- How long will it take me to complete the program?
 - R. Program length will vary among students. It is mostly based on the number of credits that must be completed in residence and course load per semester. Unlike the associate program, this one was designed to accommodate students who are working part time or full time. Classes may be taken during the day or evening hours.
- What type of degree will I get when I have finished the program?
 - R. You will be awarded a bachelor of science degree with **major in General area or in MRI or in CT. MRI & CT requires hospital training for approx 10 mo.**
- I am an international student with ARRT and NYS licensure. Can I still apply to the program?
 - R. Yes – simply contact the International Students Office at 718-260-5509 or send an email to Ms. Villanueva at: vvillanueva@citytech.cuny.edu. **Apply EARLY if you have any foreign COLLEGE or HS transcripts.**
- What should I do if I am unable to register for a RAD course?
 - R. You should report the issue to the program director, Dr. Subhendra Sarkar, or the chairperson, Prof. E. Lespinasse. They will assist you in registering for the course if seats are available. **Most of RAD courses require dept permission, ask for it early.**
 - **Usually there are 2 HOLDS, one for college advising and one for dept advising after which you can register, so start early.**
