### **Emerging Scholars Program Application – Part II – Spring 2023**

The Emerging Scholars Program provides a \$500 stipend for full-time students (enrolled for 12 or more credits) and a \$250 stipend for part-time students (enrolled in 11 or fewer credits) for conducting research with a faculty member. The purpose of the program is to provide students with an opportunity to apply what was learned in the class room to discover new knowledge, to solve real-world problems and to develop professionally while working with faculty to advance scholarly endeavors. The program includes specially designed workshops offered by the Undergraduate Research Committee and participation in a biannual poster session. This is the second part of a two-part application, to be filled out by the student interested in participating in the Emerging Scholars program.
